NOTES:

- **Our Year 1 corresponds to Year 7 of the UK educational system. Placement in the appropriate Year depends on the educational system a student comes from. The age and the academic performance are also taken into account.**
- ***¹ All Day School: In Years 1-3 the subjects taught are Mathematics, Science and English. Mathematics is taught two times a week whereas Science and English are each taught once a week. Students may choose to follow only one subject once a week, i.e. Science or English.**
External Examinations Support Lessons: In Years 4-6 most of the major elective subjects are taught once a week. The school offers these external examinations support lessons aimed at students who are either recommended for external examinations by their teachers or ahead of the external examination registration period their teachers predict they will be recommended for external examinations. The purpose of these lessons is exclusively to maximize student performance on the external examinations. External Examinations Support Lessons focus on the subject specific external examination technique, style, questions type and past papers.
Additional major elective subject: In Years 4-6 students have the option of choosing an extra major elective subject, such as French or Biology as part of triple science (Physics, Chemistry, Biology).
- ***² Accommodation in the boarding facility: The above fees are for 1 bed studio. The annual cost of 2 bed studio is €2,000 less than the cost of 1 bed studio (subject to availability). Students can check-in as of 1st of September and they must check-out in June a few days after their school/external examinations finish or after their graduation ceremony.**
Alternatively, stay with a host family is possible.
- ***³ Meals (full board): some special dietary requirements may require additional payment.**
- ***⁴ Accommodation/Meals/Laundry and cleaning during school holidays (Christmas, Easter, July and August): €400 per week or €1,700 per month.**
- ***⁵ Transportation to school and back to the boarding facility during school holidays (Christmas, Easter, July and August): estimated around €300 per month.**
- ***⁶ External examinations fees: The fees for the external examinations depend on the subject/level/examinations body and are charged additionally.**
- ***⁷ Airport transfers with or without escort for unaccompanied minors can be arranged by the school with taxi/transport companies cooperating with the school.**
- **Visiting students (short term stay/integration programme): Students thinking of attending the school can register for a trial period (from 1 week up to 3 months) and the fees are €700 per week for 1 bed studio in the boarding facility or €600 for a 2 bed studio. The fees cover the costs stated above as "included in the fees" except for some seasonal uniform items, books and stationery (used books are provided or some may be borrowed from the library), medical insurance (only Personal Accident and Public Liability insurance policies are included), visa fees and related expenses (only tourist visa is required), clubs fees and local school excursions fees.**
- **If the registration is cancelled/withdrawn within two weeks of the down payment of €2,000 then a cancellation fee of €500 will be charged. Thereafter there will be no refund.**

- Once the Entry Permit is issued the student/parent/guardian is liable for the payment of the full fees for that academic year.
- The above stated fees are reviewed annually.
